## Mountain routes in the area

The Karkonosze region is an ideal place for those who enjoy close contact with nature. Here are our suggested trails and locations situated nearby.

### **Śnieżne Kotły**

Śnieżne Kotły is an excellent viewpoint offering a panorama of the Sudetes peaks. These glacial cirques consist of two parts: the Small Śnieżne Kotły to the west and the Great Śnieżne Kotły to the east, separated by a rocky ridge.

### **Szrenica**

Leaving our hotel, you are practically already on the trail to the highest peak of Szklarska Poręba – Szrenica, which provides a perfect viewpoint over the Jelenia Góra Valley and the Iżera Mountains. From Szrenica you can continue your hike toward Śnieżne Kotły or to the rock formation known as Trzy Świnki on the Polish–Czech border.

### **Schronisko pod Łabskim Szczytem**

We encourage you to take a trip toward Łabski Szczyt, visiting along the way the charming mountain hut that serves as a stop for many travellers in the Karkonosze. The hut is located close to both Śnieżne Kotły and Łabski Szczyt.

### **Polana Jakuszycka**

The glade offers wide open space for walks and picnics among picturesque views and a unique microclimate. Jakuszyce is also home to the Cross-Country Skiing Centre, offering more than 100 km of trails of various difficulty levels, whose layout and location allow many route combinations.

## **Chatka Górzystów**

A trip to Chatka Górzystów is considered easy and pleasant, and the tourist trail leading to the Izera Meadow allows for a peaceful walk surrounded by nature and the landscapes of the Izera Mountains. Chatka Górzystów can be reached not only on foot but also by bike. Besides beautiful views, the hut is famous for its delicious, fluffy pancakes with cheese and Izera blueberries.

## **Ski Slopes**

The nearest ski slope is Ski Arena Szrenica, located less than one kilometre from Platinum Adults. The Czech resort of Harrachov is a complex of slopes offering diverse runs suitable for both beginners and advanced skiers. The advantage of this centre is its close distance from Szklarska Poręba – only 14 km by car.

## **Szklarka Waterfall**

The 13.3-metre cascade of the Szklarka stream narrows at the bottom, forming a circular pothole. It is picturesquely located within the Karkonosze National Park, at an altitude of 520 m above sea level, in the central part of the Szklarka Gorge. On the left bank of the rocky threshold there are impressive potholes. According to legend, the waterfall is connected to the spirit Karkonosz and the glassmaker's daughter, Szklara, whose name the stream bears today. The waterfall lies within the National Park, and an entrance fee applies.

## **Kamieńczyk Waterfall**

The Kamieńczyk Waterfall consists of three cascades with a total height of 27 metres. It flows into the picturesque Kamieńczyk Gorge, which is about 100 metres long, with rocky vertical walls of 20–30 metres and a width in some places of less than 4 metres. Beneath the middle cascade lies a small cave, the "Golden Cave", partly carved artificially by Walloons. A small entrance fee is charged.

## **Local attractions**

The Karkonosze region is an ideal place for those who enjoy close contact with nature. Here are our suggestions for trails and nearby locations.

### **Valley of Palaces and Gardens**

The Valley of Palaces and Gardens at the foot of the Karkonosze Mountains is a unique complex of 30 beautiful sites – castles, palaces and manor houses, including such remarkable places as: Pałac w Stanisławowie, Pałac na Wodzie in Stanisławów Dolny, Pałac w Wojanowie, Pałac w Łomnicy, Zamek w Karpnikach, Pałac w Pakoszowie and Pałac Spiż in Miłków.

### **Siruwia Japanese Garden**

The highest-located Japanese garden in Poland (600 m a.s.l.). The garden combines the landscape and vegetation of the Karkonosze with oriental plants and Eastern motifs in harmony with feng shui principles. Siruwia Gardens are famous for their impressive collection of rhododendrons and enchant with both harmony and the richness of their ornamental flora.

### **Miniature Park of Lower Silesian Monuments**

Heritage enthusiasts are invited to visit the Miniature Park of Lower Silesian Monuments, where the most important and beautiful landmarks of the Lower Silesia region await, including Zamek Czocha, the palace in Mysłakowice, and the characteristic mountain-top observatory on Śnieżka.

### **SkyWalk**

The viewing platform is located in nearby Świeradów-Zdrój. From the top of the tower, there is a beautiful view of the spa town and the mountain landscape. The return from SkyWalk can be made easier thanks to a 105-metre slide, and a bit of adrenaline is provided by the droplet-shaped net and the glass walkway.

## **Huta Szkła Julia**

When visiting our hotel, you may notice crystal masterpieces from the regional Julia Crystal Glassworks. During the tour, you can learn the fascinating history of the glassworks, admire the glass-making process, and take part in workshops to discover the secrets of the craft.

## **Chojnik Castle**

Chojnik Castle was built in the 14th century by Duke Bolko II as part of the border fortifications of the duchy. ## **GeoPark**

In the St. John mine, zinc and cobalt ore adits operated from the 16th to the 19th century. The site can be visited by following the educational tourist route “In the Footsteps of Old Ore Mining”. Along the 8 km trail, there are 12 surface points and an underground route 350 metres long.

## **Wang Church**

The medieval wooden Wang Temple in Karpacz was built in the 12th century in Vang, in southern Norway, and transferred to Karpacz in the 19th century. Its architecture combines Romanesque art with Nordic folk style. The church is made of Norwegian pine, whose resin-rich wood is exceptionally durable.

## **Czocha Castle**

Built as a border stronghold on the Silesian–Lusatian frontier between 1241 and 1247. This defensive border castle is located in the village of Sucha, above Lake Leśniański on the Kwisza River, in the Polish part of Upper Lusatia.
