

4-5 JUNE 2026

COSMIC EXPLORERS

AT SALTIC RESORT & SPA GRZYBOWO

THURSDAY (4 JUNE), EVENING:

Cosmic Academy 6:45 pm – 9:45 pm

- Workshop: creating a cosmic postcard with constellations
- Workshop: building cosmic structures with LEGO bricks on baseplates
- Approx. 8:52 pm: sunset observation on the beach using Seestar telescopes (weather permitting)

In case of unfavorable weather, additionally:

- Virtual VR Education Zone (Apollo 11 Mission, ISS tour, learning about star formation, stellar life cycles, the creation of black holes and gravitational waves)

FRIDAY (5 JUNE), MORNING:

Cosmic Academy 11:00 am – 2:00 pm

- Observing solar plasma eruptions through a Lunt telescope
- Observing the Sun and sunspots in visible light through Seestar telescopes
- Smartphone landscape photography workshop in front of the hotel and/or on the beach

*In case of unfavorable weather,
guests may choose from:*

- Talk: what solar activity and space weather are, and how auroras are formed
- Workshop: painting sunspots on canvas / bristol board paper (solar activity)
- Workshop: operating Seestar smart telescopes and classic optical telescopes, e.g. MAK 127
- Knowledge Zone (how to start your own astronomy observations, what equipment to choose, recommended books, etc.)
- Virtual VR Education Zone (discovering the secrets of the Solar System)
